

CANARI CSOs4GoodGov social media record 2017-2020

Summary of project visibility activity:

Awareness of, interest in and engagement with outputs of the CSOs4GoodGov project grew gradually over its three-year implementation period (April 1, 2017 – March 31, 2020).

CANARI used its own Facebook page and established the dedicated project [Facebook page](#) in August 2018 to actively promote the project and work by Catalysts. CANARI also used Twitter for added visibility and updated the SDGs Knowledge Platform with content from Catalysts and CSOs across the Caribbean. CANARI's project webpage was maintained throughout the project, including with up-to-date reports on project meetings and other activities.

- In all, there were 248 social media posts about the project during the 3-year period: 89 on CANARI's Facebook page (<https://www.facebook.com/CANARICARIBBEAN>); 120 on the CSOs4GoodGov Facebook page (<https://www.facebook.com/csos4goodgov>); 39 on CANARI's Twitter account (<https://twitter.com/CANARICaribbean>). Posts across both Facebook pages reached approximately 36 000 persons.
- There were 50 uploads made to the SDGs Knowledge Platform (<https://hub.canari.org/sdg/>) since going live in May 2019. The total page views between August 2019-March 2020 is estimated at approximately 271,000. A total of 32 CSOs, 24 from T&T and 8 from other Caribbean islands contributed posts to the platform.

Year 3 highlights:

During the first five months of Year 3 of the project; April to September 2019, a significant portion of dissemination and visibility work focused on two items; the Non-Profit Organisations Bill 2019 – which was passed in T&T Parliament on April 11, 2019 and became the NPO Act, 2019 – and the Caribbean Civil Society SDGs Knowledge Platform (SDGsKP). Dissemination of the concerns and recommendations of TT NPOs on the Bill-cum-Act was done via social media posts; inclusive of videos, flyers and statements, targeted emails, Listservs, live interviews on radio and television, and in newspaper articles.

A significant milestone occurred in Year 3, when the SDGsKP went live on May 7, 2019. A call for submissions then went out on July 2 for the period July 2 – July 31, followed by the platform's formal launch by CANARI, in conjunction with the EU in TT and the Ministry of Planning, on July 30, 2019. There was significant engagement with videos about the SDGsKP and with articles and posts about the platform's formal launch.

Higher than average engagement levels were also recorded for short videos on project deliverables/events. A 5-part, "Key Takeaways" video series was produced in February 2020 by CANARI, related to the development of CSO shadow report on SDG 13 Climate Action. The videos incorporated interviews with and footage of Catalysts who attended the December 3, 2019 consultation workshop, held to gather inputs to the report.

Please refer to the tables below for a breakdown of engagement levels on CSOs4GoodGov social media posts. Social media engagement refers to the number of shares, likes, comments, URL clicks, and picture clicks for a post. In general, the more engagements a post has, the more people will see it.
