On December 7, 2021, UWI-CERMES and CANARI launched the **Regional Sargassum Action Learning Network** to help the region better address sargassum seaweed influxes and its impacts.

The first of its kind, the Network will provide a forum for knowledge exchange, problem solving and shared learning between key stakeholders to enhance readiness and capacity in management and adaptation.

**CEPF second Call for Proposals:**
Deadline extended to Feb. 27th

Civil society organisations (CSOs) working in biodiversity conservation now have until **Sunday, 27 February 2022** to submit letters of inquiry (LOIs) for the **second CEPF Call for Proposals**.
This call is open for proposals in priority sites and conservation corridors in Antigua & Barbuda, The Bahamas, the Dominican Republic, Jamaica, Saint Lucia and/or St Vincent & the Grenadines.

Meet the CANARI Team

Ainka Granderson  
Senior Technical Officer & Climate Change and Disaster Risk Reduction Programme Manager

Born and raised in Trinidad and Tobago, Ainka has also lived and worked in Australia, the South Pacific, United States and United Kingdom. As a climate adaptation expert, Ainka brings together her twin passions for conserving nature and building the resilience of frontline communities. She loves adventure and the outdoors, from hiking to paragliding, and also enjoys gardening and dancing (Salsa and African dance) in her spare time. Her favourite writers are Aldo Leopold, Earl Lovelace, Frantz Fanon and Terry Morris.
